1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and interesting in the history of science, and that it has been the subject of much speculation and controversy. The author then proceeds to discuss the various theories which have been advanced to explain the origin of life, and to show that the most plausible of these is the theory of spontaneous generation.

1
The first of the month of March 1861
I received from you a letter of the 28th
in which you informed me that you
were going to the West. I was
glad to hear of it and hope you
will have a successful journey.
I am well and hope these few lines
will find you the same. I am
very truly yours,
J. W. Smith
